VOL. XLV Issue 9

**WELCOME OUR NEW CHAIRMAN
FOR THE NEW NEIGHBOR
COMMITTEE!**

Melanie Bennett is the new chairperson of the Welcome New Neighbor Committee. She and husband Dan are fairly new neighbors themselves, having moved here in January of 2008. Melanie is a Special Education teacher for the Fairfax County Public Schools, working with adults with multiple disabilities. And in the relatively recent past she was a clown with both the Ringling Brothers and Cole Brothers circuses! Welcome Melanie by promptly reporting to her the arrival of new neighbors. Remember - she just needs addresses. (melanieannebennett@gmail.com or 973-219-3182).

**WANTED: SOMEONE WITH
ADVERTISING EXPERIENCE**

If you have some background with advertising, the Civic Association needs YOU! We need some assistance with the Directory and Farmer advertising. Call Steve Price at 703-321-8711 if you're willing to help out your neighbors in this regard.

STOP! Save this Farmer. It's the last one until September. Sign-up to receive the RFCA e-newsletter at www.ravensworthfarm.org and get neighborhood news during the summer!

H1N1 VIRUS (SWINE FLU) INFORMATION

The Virginia Department of Health (VDH) has a "Swine Flu" Information Line:

1-877-ASK-VDH-3
(1-877-275-8343)

WHAT YOU NEED TO KNOW:

New viruses, such as "swine flu," can spread easily from person-to-person and potentially cause a pandemic. People have little natural immunity to these new viruses. Although there is no vaccine ready to protect against "swine flu," there are steps you can take now to protect yourself and others.

"Swine Flu" is transmitted the same way as seasonal influenza:

Flu is a highly contagious infection of the breathing system (nose, throat and lungs) caused by flu viruses.

How Flu Spreads:

- Person-to-person when an infected person coughs, sneezes or talks
- You can become sick when you breathe infected droplets or touch infected droplets and then touch your own eyes, nose or mouth

Flu Symptoms:

- Fever, dry cough, sore throat, runny nose, headache, muscle aches, extreme weakness and tiredness
- Some may have nausea, vomiting and diarrhea
- Symptoms appear 1-7 days after being infected
- People with underlying medical conditions may encounter serious complications, such as bacterial pneumonia, dehydration, heart failure and death

Con't pg. 8

Managing the Flu:

- Over-the-counter medications can be effective for many flu symptoms
- Antiviral medication may be prescribed by your doctor. To be effective, antivirals must be started within two days after onset of illness
- Use all medications only as directed
- For general care, get lots of rest and drink plenty of fluids

**Seek Medical Care Immediately If You Have:**

- Difficulty breathing or chest pain
- Purple or blue discoloration of the lips
- Vomiting and unable to keep liquids down
- Dehydration such as dizziness when standing, lack of urination, or in infants, a lack of tears when they cry
- Seizures
- Confusion
- Contact your doctor and inform them of your symptoms before going in

Protect Yourself & Others Against Flu:

- Cover coughs and sneezes
- Discard all tissues
- Wash hands often
- Stay home when sick with the flu
- Know your medical history

For the latest information on “swine flu” to include the number of confirmed cases, visit:
<http://www.cdc.gov/swineflu>

The Proper Way to Wash Hands:

Start with warm water, Use soap and lather, Rub for 20 seconds, Scrub palms, fingers & nails, Rinse well, Dry hands completely
